Rebowl Services
Upgrades for Vertical Turbine Pumps
After years of continuous, heavy-duty service, the performance and operation of vertical turbine pumps can decline. Often indicated by excessive vibration, cavitation and loss of head, pump fatigue is a costly condition resulting in increased power consumption and maintenance costs.

Flowserve has developed an extensive rebowl services program that revitalizes the performance of vertical turbine pumps and reduces total pump operating costs. Whether restoring an aged pump or accommodating a change in operating conditions (capacity or head), customers are ensured high quality upgrades that focus on prolonging equipment life and improving safety.

**Rebowl Specialists**

As a manufacturer of one of the world’s most comprehensive lines of vertical turbine, mixed and axial flow pumps, Flowserve has the engineering expertise and resources to diagnose existing and potential problems and recommend appropriate corrective services for even the most complex of vertical pumps.

Rebowl services include:
- Complete up-front inspection of all pump components
- Refurbishment of deteriorated components
- Upgraded replacement components
- Materials upgrades
- Warranty of both service and parts
- On-site installation service available
Flowserve rebowl services are available for any vertical turbine pump, regardless of model, age, service or manufacturer.

**Rebowl and Upgrade Options**

- Reuse existing discharge head and column pipe
- Convert from open to enclosed lineshaft
- Convert from packed box to mechanical seal
- Upgrade materials
- Enclosed, open or semi-open impellers, keyed or collet mounted
- Open or enclosed lineshaft construction
- Product, oil or water injection bearing lubrication
- Flanged or threaded column pipe
- Bowl and enclosed impeller wear rings
- Cast iron or fabricated steel discharge head
- Above or below ground discharge
- Multiple drivers
  - Electric motors
  - Engines with right angle gears
  - Steam turbines
- Motor steady bushings for a two-piece headshaft

**Bottom-line Benefits**

Flowserve rebowl services provide the following significant benefits to vertical turbine pumps:

- Improved pump performance
- Reduced power consumption
- Increased reliability
- Reduced maintenance costs
- Increased uptime

**Service for All Makes and Models**

Flowserve rebowl services are available for any vertical turbine pump, regardless of model, age, service or manufacturer.

For Rebowl Services, Call Flowserve

Flowserve rebowl technicians are committed to getting pumps back in service in the shortest possible time. To schedule service, please call +1 937 890 5839.

Flowserve has a global network of service centers to ensure upgrades are performed expertly and quickly.

Twenty-four hour service is available for emergency repairs.
