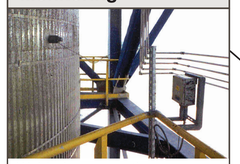
A Tradition in Decoking System Innovation

Isolation Valves

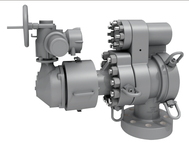
Pneumatic shown; electric available

Drum Vibration Monitoring



Welded or magnetic sensor mounts available

Decoking Control Valve

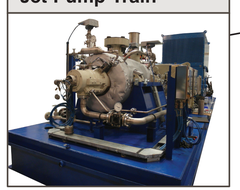


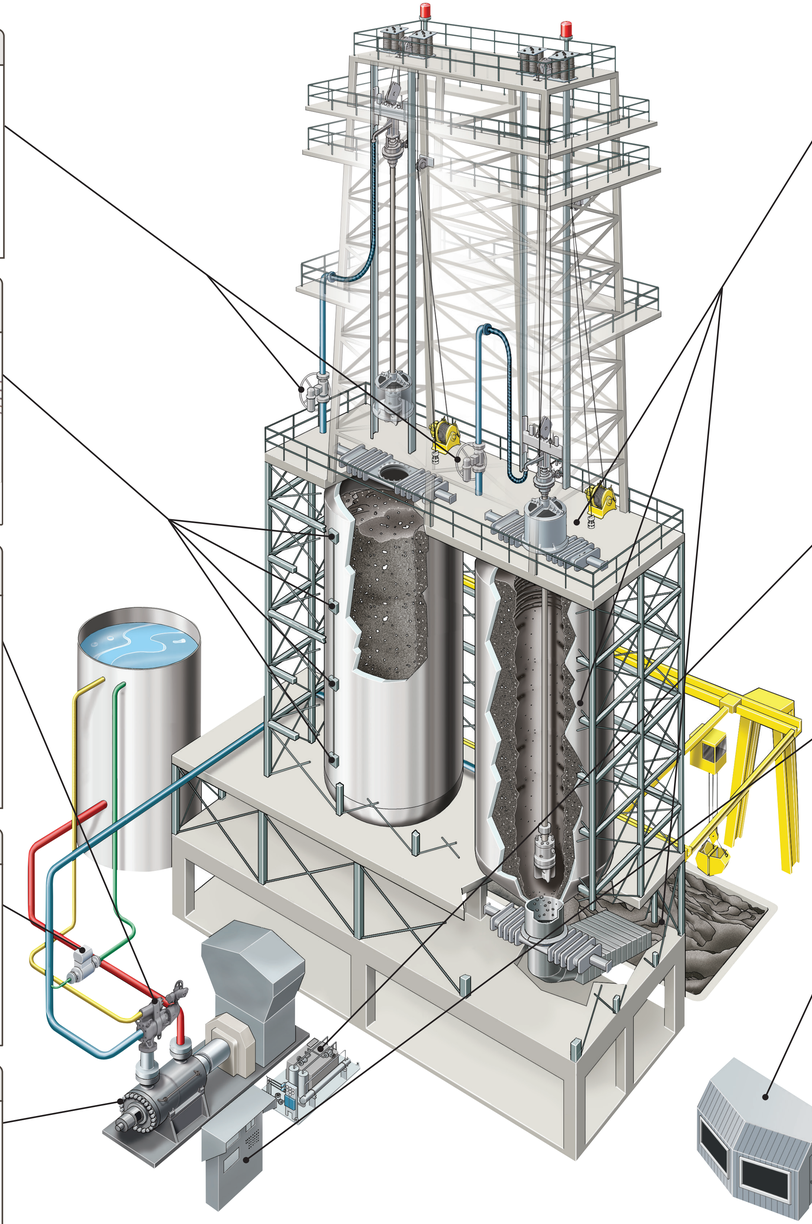
Advanced decoking control valve shown; standard or sliding seal 6x6x3L available

Bleed Valve

Pneumatic shown; electric available

Jet Pump Train





Audio/Video Drum Monitoring

Modular Automation System

Lube Oil Skid

Control System Panels

Operator Shelter

Decoking Hose

API 7K or 17J

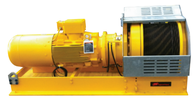
Tool Enclosure and Guide Plate

Vapor recovery or lifting configurations

Tensiometer

Running-line tensiometer also available

Winch

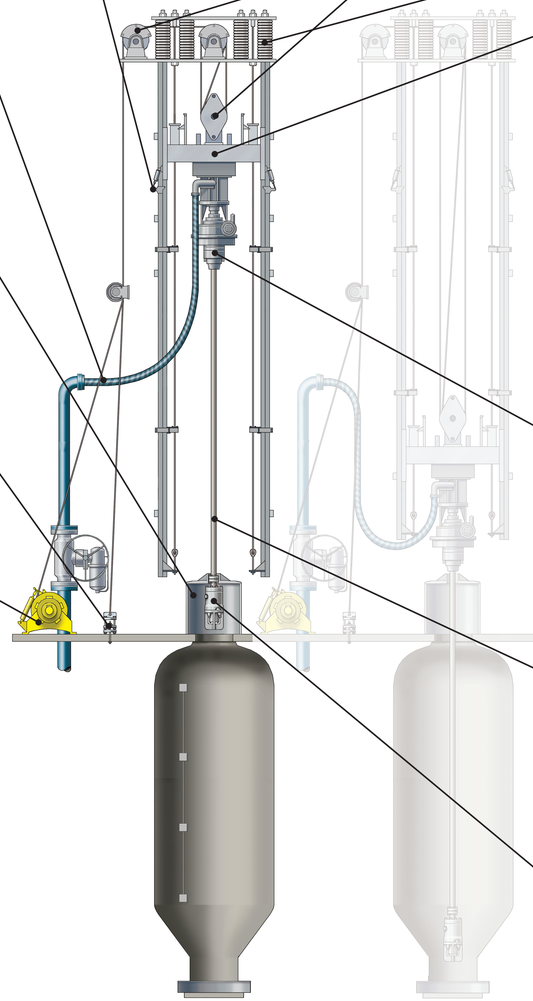


Electric shown; hydraulic or electric-over-air available

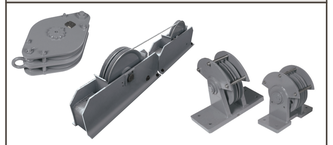
Operator Console

Latching Mechanism

Electric shown; pneumatic available



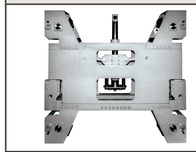
Pulley Blocks



Arrestor Springs

Cable-Gripping Crosshead

Rail-Gripping Crosshead



Rotary Joint

Electric shown; hydraulic or electric-over-air available

Drill Stem Assembly

Cutting Tool
